Traxon launches Liner Quattro AC XB RGBW to its Illumination portfolio

12 April 2016, Hong Kong- Traxon – an OSRAM brand, a global leader in solid state lighting and control systems, introduces Liner Quattro AC XB RGBW under the illumination portfolio. With precision optics, Liner Quattro AC XB RGBW is a powerful but energy efficient, full-color RGB, plus W, IP66 rated outdoor luminaire designed for architectural colour-changing facade lighting and outdoor high brightness flood lighting applications.

The intelligent and powerful outdoor Liner Quattro AC XB RGBW provides superior close-field color mixing and light performance suitable for urban and coastal environments with a variety of beam options, including 13°, 60°, 30°x15° and 75°x40°. The flexible luminaire mounting allows the Liner Quattro AC XB RGBW can both be used for wall washing and flood lighting applications, while guaranteeing a vast lumen output of 1494lm (600mm) and 2922lm (1200mm). With active over-temperature protection, Liner Quattro AC XB RGBW enjoys a longer LED lifetime compared to other luminaires in its category. Remote Device Management, simple configuration and addressing makes it an easy to install and maintain luminaire for powerful illumination of office buildings, shopping malls, bridges, hotels and stadiums.
