## Circle Condominium - Bangkok, Thailand

### Simple but effective, Traxon Monochrome Tube WW creates perfect highlights for a modern landmark

The Circle Condominium in Bangkok, Thailand is a beautiful landmark signifying the lofty aspirations of Bangkok. Aiming to combine quality, luxury living in a modern and eco-friendly way, the Circle Condominium looms over the “new Bangkok Downtown” and is situated in an easily accessible location on New Petchburi Road, a few minutes from the local city airport terminal.

OSRAM Lighting Solutions is proud to be a part of this wonderful project and happy to accommodate in regards of the lighting experience. Opting for simple efficiency, we integrated the highly reliable Traxon Monochrome Tube WW to highlight the façade of the complex. The slender design and various lengths of the Monochrome Tube fit perfectly with the foundation of the Circle Condominium, being easy to install and maintain. Its excellent efficacy and even light distribution creates perfect parallel lines of light on the façade of the building, giving a simple but effective highlight in the night sky.

From initial designs through to implementation and beyond, OSRAM Lighting Solutions helped guide the process from beginning to end. With all our years of experience and expertise, we offer the full package for full satisfaction.
