

SHOWCASE

Xi'an High Tech Zone – Xi'an, China

The Xi'an High Tech Zone, home to more than 8 millions people was declared a national technology development zone in 2016. The area is seen as one of the core zones for free trade in China and will be developed accordingly to fit into the "Belt and Road Strategy" of the Chinese government.

OSRAM is one of the partners to support Xi'an becoming a more beautiful and sparkling city. The beautification project is meant to illuminate the gigantic buildings of the city to create a shining landscape and a beautiful scenery.

The High Tech equipment provided by OSRAM includes the control systems e:cue Lighting Control Engine, Butler PRO and Butler S2 so that the whole set up can be controlled wirelessly by computers. 18,000 OSRAM ARCHISHAPE® Wall Washer MINI and MIDI illuminate the façades of the buildings and draw attention to the magnificent scenery.
