

# SHOWCASE

## Club Trias

Before closing, the Trias Club was a well known disco in Slupsk, Poland. For its reopening, Traxon provided its innovative Tile 64PXL Wash panels to create a unique dance and nightclub atmosphere in the venue. Traxon installed strips of panels in the center and at the side of the dance floor to create an omnipresent columnar light show. Controlled by latest DMX technology the panels enable the club to play a huge spectrum of different colorings and offer them the ultimate solution for picturing shapes, images, moving text and replaying video animations.
