

SHOWCASE

Hotel Lisboa - Macau, China

Macau has been labeled as Asia's Las Vegas and distinguishing oneself from the rest is a top priority for any casino in Macau. To outline the exclusiveness of the Hotel Lisboa in Macau, Traxon has created an eye-catching golden lighting solution for the Lisboa Casino's outdoor façade as well as an elegant exterior lighting for its canopy entrance. The installation is a tailor-made solution for customized color, lighting source and optic. In order to find the best solution to harmonize new design into the existing neon-light components, Traxon has delivered, in an innovative way, a stunning golden light solution using an elegant combination of Traxon's Wall Washer XB-36 RGB 3W and the Liner XB-9 and Liner XB-18 in Warm White and RGB. On top of the brilliant lighting atmosphere, the creative team incorporated a dynamic graphical animation to allow the lighting to synchronize with sets of differently themed music, and colors can also be adjusted according for particular events.

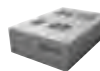

FEATURED PRODUCT

Wall Washer
XB-36 RGB 3W

Liner XB-9, XB-18 RGB
Liner XB-9, XB-18 Warm White

LED Engine XB

Butler
